

Sterisol Ecoline Gentle Soap

Properties

A gentle, lightly perfumed liquid soap developed to be extra mild.

The mildness is created by:

- no preservatives
- no colorants
- high quality ingredients

Field of application

A perfect choice when you want a gentle soap in an elegantly designed dispenser.

Suitable for almost all environments like offices, small work places etc. As the soap can be used for the whole body we also recommend it for gyms and showers.

The dispenser is available in three colors; silver, black and white

Without preservatives
Must be used with a dispenser

Environmental aspects

Fulfills the criteria for the EU- and Nordic Ecolabel. The first soap that was EU-labelled in Sweden in this category. Biodegradable raw materials. Low amount of packaging. One 375 ml bag contains 11 gram plastic material compared to a traditional bottle which contains 33 gram. See also below.
